RESTRO-BOOK

User Guide

INDEX

INTRODUCTION

The 'RESTRO-BOOK' helps user to make a table reservation at a restaurant. Saves user time of finding the number or going physically at restaurant to make the reservation. Also, the user dashboard maintains all the information of previous and upcoming bookings.

Not only to the customers but for restaurants the 'RESTRO-BOOK' is useful. As with this restaurant can easily maintain all the records of the table reservations like reservation date, time along with the customer's name and contact number.
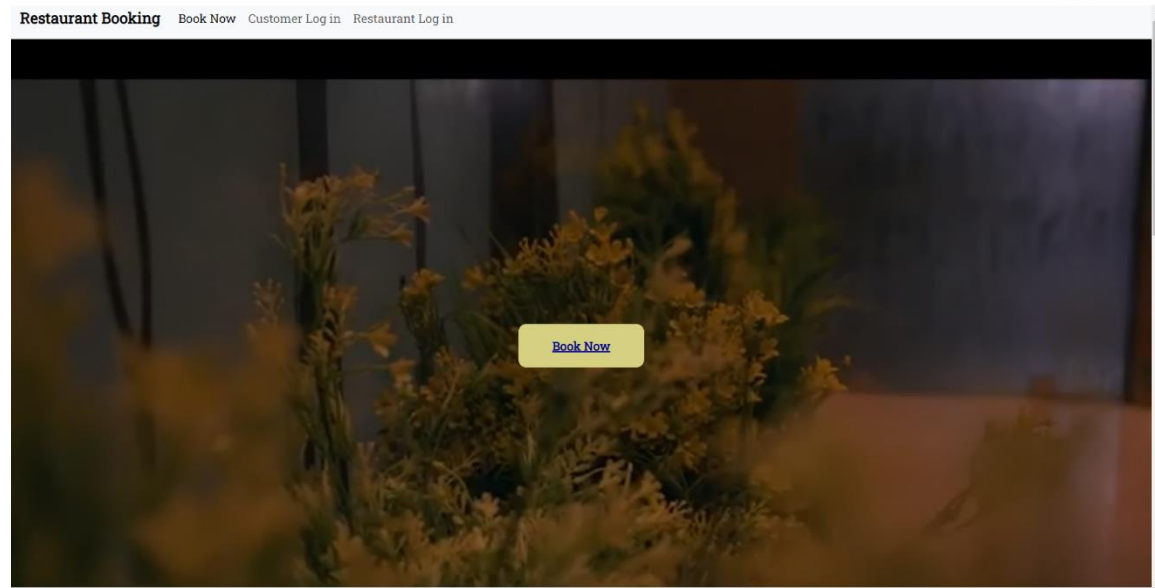

The detailed steps are given below with the screenshots to make the use of 'RESTRO-BOOK' more convenient.
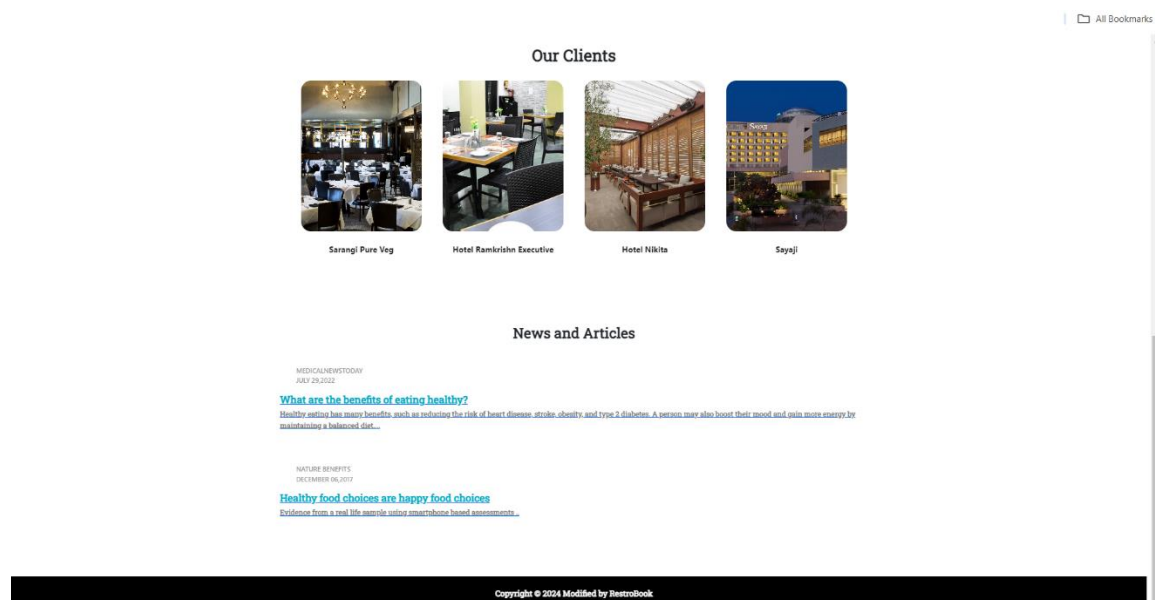

Screenshots & Guide
